SMET ETHICAL TRADE PROGRAM

CHILD LABOUR AND SLAVERY

We raise awareness of this issue with our suppliers to ensure that no child labour is used to make our products. Smet and its suppliers strongly condemn slavery, forced labour and any practices that exploit, endanger or harm children.

EMPLOYMENT IS CHOSEN

There is no forced, bonded or involuntary prison labour. Working hours comply with national laws and benchmark industry standards, whichever affords greater protection.

QUALITY CONTROL

Smet strives to obtain the highest quality standards. Therefore, it reviews the quality of all factors involved in the production of its products day by day.

DISCRIMINATION

Our program aims to ensure that all workers are treated equally, fairly and with the respect and dignity they deserve. Open communication is our key to achieve this standard.

WAGES

We assess all our final product suppliers to find out if all the workers in the supply chain earn at least a minimum wage and are paid for any overtime.

TRANSPARENCY

We report publicly, and in more detail as its experience grows, on our commitments, activities and impacts to ethical trading. We also encourage our suppliers to be transparent about their ethical trade performance.

SUSTAINABILITY

Smet contributes to a sustainable supply chain and carries responsibility towards society and the environment.

"As a Belgian chocolate company, fair trade and durability are high priorities for us. In order to help the smallest "cocoa farmers" in Ghana along, Smet has supported the construction of the preschool financially and has delivered didactic materials. By now, the preschool has been completed and it has recently got its own computer space which is a valuable addition for the school, as well as for the children of Ghana."

WORKING CONDITIONS

Smet ensures that everyone who makes its products is safe at work and has a healthy working environment. Workers shall receive regular and recorded health and safety trainings and such trainings shall be repeated for new or reassigned workers. Furthermore accommodation, where provided, shall be clean, safe and shall meet the needs of the workers.

TEAM SPIRIT

We believe in Synergy! Working together is more efficient, more productive and more fun for the team. The whole is much greater than the sum of the parts.

INNOVATION

As a problem solver, Smet is the reference for innovation in the chocolate decorations market. Our Research and Development team is working on a daily basis to continuously strengthen this position by optimising recipes and processes to deliver cutting-edge solutions.
